Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This communication is responsive to the applicant's amendment dated 02/28/2007.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 10-11 are rejected under 35 U.S.C. 102(e) as being anticipated by McIntosh (US-6278786).

Regarding claims 10-11, McIntosh discloses an active noise cancellation headset system. McIntosh's disclosure comprises a method of allowing a plurality of headphones having different acoustic properties to provide noise cancellation with a noise cancellation circuit operable over a predetermined phase range of noise cancellation input signals (the noise canceling headset system of McIntosh is capable of use for different headphones with different acoustic properties as shown in Fig. 8), the method including the step of: providing at least one of the headphones with a passive filter (conventional compensation filter H_{comp} in Fig. 3) configured to modify the output of

Art Unit: 2615

a sound transducer (12) associated with the at least one headphone so that the filter provides a noise cancellation input signal for the noise cancellation circuit which is within the predetermined phase range.

Regarding claim 11, see col. 4, line 60-col. 5, line 7 for determining the operating condition of the passive filter based on the monitoring condition of a microphone (18) error signal within the headset, i.e., an acoustic property of a selected headphone as claimed.

Allowable Subject Matter

4. Claims 1-6 and 9 allowed over prior art of record.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 2615

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
